DRAFT RULES UNDER THE AGRICULTURAL AND SANITARY IMPROVEMENT BILL.

1. For the purpose of determining the cost of a work as defined in section 2, clause (*3*), interest, if charged, shall be calculated –

(*a*) in the case of a recoverable deposit or advance made by a local authority or person, at such rates and from and to such dates having regard to the dates of recovery under this Act, as may be prescribed for a loan taken from Government under the Local Authorities Loans Act, 1914 (IX of 1914) or the Land Improvement Loans Act, 1883 (XIX of 1883), respectively, so far as may be practicable, as if it were such a loan;

(*b*) in the case of a recoverable advance made direct by Government without recourse either to the Local Authorities Loans Act, 1914 (IX of 1914) or the Land Improvement Loans Act, 1883 (XIX of 1883), at a rate of not more than 6¼ per cent. per annum on the expenditure in any financial year from the first day of the following year till the middle of the total period expected to be taken up in recovery.

2. If the estimated cost of the work involved in a scheme either exceeds Rs. 50,000 or involves a rate greater than Rs. 15 per acre of the area estimated to be benefited by the proposed improvement, such scheme shall be deemed to be a major scheme.

3. The Collector may certify after consulting the Superintending Engineer through the Executive Engineer under sub-clause (*iii*) of clause (*8*) of section 2 that a scheme which affects any other scheme or a tidal or other important river, Government canal, public embankment or railway should be treated as a major scheme although the total estimated cost does not exceed the limit prescribed in rule 2:

Provided that if the Collector disagrees with the Superintending Engineer, he shall refer the matter to the Local Government for orders and shall certify the scheme in accordance with such orders.

4. No scheme can be modified under section 5, sub-section (*2*) or section 8, sub-section (*1*) (*b*) without reference to the Engineer or to engineering, agricultural, sanitary or other experts according to the nature of the matter involved, for advice on technical points.

5. The notice under section 6 shall be in the form given in schedule A and shall be published in the manner laid down in rule 20. The time to be allowed for objections or suggestions shall not be less than 30 days from the date of the publication of the notice.

6. In minor schemes the Collector shall, as soon as possible after the expiry of the period fixed by the notice published under section 6, fix a date and place for considering the objections or suggestions received in regard to such scheme and shall inform the persons making the objections or suggestions as well as the applicant accordingly. It shall not be necessary for the Collector to record statements of witnesses in detail, but the Collector shall make such brief memorandum of evidence as he may deem necessary.

7. When a minor scheme is accepted by the Collector under clause (*b*) of sub-section (*1*) of section 8 or when a major scheme is accepted by the Committee under section 10, the Collector or the Committee shall at the same time determine—

(*1*) how the work is to be financed, *i.e.*—

(*a*) whether the working cost should be advanced in the first instance by the applicant; or

(*b*) whether after reference to the Local Government or a local authority, the cost may be advanced by the Local Government or local authority or jointly between them; or

(*c*) whether the cost should be provided for partly under (*a*) and partly under (*b*); and

(*2*) how the total cost should be distributed, *i.e.*, what proportion of the cost shall be ultimately met by (*a*) the applicant, (*b*) the Local Government, (*c*) any local authority, and (*d*) the landlords and tenants collectively of the local area:

Provided that no local authority shall be called upon to advance or meet the cost or any portion thereof unless such local authority is the applicant or has agreed to advance or meet such cost.

N. B.—The cost may be advanced by the applicant or by a local authority, by taking a loan from Government under the Land Improvement Loans Act, 1883 (XIX of 1883) or the Local Authorities Loans Act, 1914 (IX of 1914) as the case may be.

8. (*1*) The Committee appointed under section 9 shall consist of not less than nine members, excluding the Collector, of whom at least half shall be selected by the District Board and other local authorities concerned from amongst themselves, and the remainder shall be representatives of the land-owning and cultivating interests of the local area to which the scheme relates:

Provided that the Commissioner may add representatives of other interests, *e.g.*, a railway, if involved in the scheme:

Provided also that if the District Board or other local authorities do not select the number of representatives allotted to them by the Commissioner, the Commissioner shall fill up the vacancy or vacancies in such manner as seems to him fit.

(*2*) Where several local authorities are concerned the Commissioner shall determine how the number of representatives allotted to the District Board and the local authorities shall be distributed amongst those bodies.

9. (*1*) As soon as possible after the appointment of the Committee the Collector shall fix a date and place for the meeting of the Committee and inform the members as well as the persons making the objections and suggestions and the applicant accordingly.

(*2*) No business shall be transacted in any meeting unless at least half the number of members of the Committee are present.

(*3*) The Chairman shall preside at every meeting of the Committee but in case of his absence at the time of holding a meeting the members present may choose one of their number to be President of such meeting.

(*4*) It shall not be necessary for the Committee to record statements of witnesses in detail, but it shall cause to be made such brief memorandum of evidence as it may deem necessary.

(*5*) Questions at any meeting of the Committee shall be determined by a majority of votes of the members present; and in case of an equal division, the opinion of the Chairman shall prevail.

10. The map to be submitted by the Engineer under section 17, clause (*b*) shall show the extent of the area benefited where recovery is to be effected from the landlords and tenants of that area. It shall also show in different colours, so far as possible, the degree of benefit derived or estimated to be derived by the different parts of the area, if there is a substantial difference in such degree of benefit. For this purpose there shall not ordinarily be more than four degrees of benefit in the classification of land, such as 16 annas, 12 annas, 8 annas and 4 annas.

11. The map referred to in section 18, sub-section (*2*), shall be published at the same time that the order of apportionment under section 18, sub-section (*1*), clause (*iii*), is published by keeping a copy of the same open for public inspection for a period of not less than 30 days in the office of the Collector or the Subdivisional Officer, as may be found convenient, and of the District Board or other local authority concerned. The fact of such publication shall be also notified along with the publication of the said order of apportionment.

12. In apportioning the share of cost under section 18, sub-section (*1*) clause (*iii*), the Collector shall determine—

(1) Whether and, if so, how the total cost recoverable from landlords and tenants shall be allocated over the different areas as may have been classified according to the degree of benefit on the map referred to in rule 10.

(2) What proportion of the cost shall be borne by the raiyats taken together and what by the landlords of all grades together. For this purpose a landlord in *khas* possession of any land shall be treated both as landlord and raiyat.

(3) What should be the basis of the apportionment. Area shall ordinarily be adopted as a basis if a record-of-rights has been prepared or revised; but the apportionment may be made on the basis of cess payable under the Cess Act, 1880, or on the profits of landlords or on any other basis where on account of intricate subinfeudation or for any other reason it appears more convenient to adopt such different basis. In the case of non-agricultural lands or premises benefited by a scheme relating to sanitary improvement the apportionment shall ordinarily be made on the basis of the municipal tax payable in respect of such lands or premises under the Bengal Municipal Act, 1884, or the chaukidari tax under the Village Chaukidari Act, 1870, or the union rate under the Village Self-Government Act, 1919, as the case may be.

(4) How the landlords' share shall be divided amongst the different classes of landlords. For this purpose the Collector shall take into consideration the extent of the interest of such landlords in the lands benefited, the rent payable whether it is fixed in perpetuity or not, and, where the tenures are for limited terms of years, the unexpired periods of such terms.

Explanation.—Where the area basis is adopted calculations may be made from the lowest grade upwards where there are several grades of landlords in the following manner :—

(*a*) Permanent tenure-holders holding at rents fixed in perpetuity, *e.g.*, patnidars, or rent-free holders shall pay the whole of the landlord's share.

(*b*) Other permanent tenure-holders shall pay three-fourths of the landlord's share.

(*c*) Temporary tenure-holders shall pay as follows :—

(*i*) In cases where the lease has 16 years or more to run the lessee shall pay three-fourths and his landlord one-fourth of the landlord's share.

(*ii*) In cases where the lease has over two years and under 16 years to run, the lessee shall pay such proportion of three-fourths as the unexpired number of years of his lease bears to 16.

(*iii*) In cases where the lease has 2 years or under to run, the landlord of the lessee shall pay the whole of the landlord's share.

(*iv*) If there is no current lease or no fixed term, the landlord and the lessee shall each pay half the landlord's share.

(*v*) The remaining period of the lease shall be reckoned in each case from the close of the agricultural year in which the statement and particulars referred to in section 18, sub-section (*2*), are published.

Illustration.—In a case in which the recoverable cost-rate is Rs. 9 per acre and it is decided that the share of the raiyat shall be Rs. 4 and that of the landlord Rs. 5, the rate may be divided as below in two possible cases of subinfeudation :—

Case I.		Case II.	
Class.	Amount recoverable per acre	Class.	Amount recoverable per acre.
	Rs. A.		Rs. A. P.
Proprietor	Nil	Proprietor	2 10 6
Patnidar or rent-free holder ...	1 4		
Permanent tenure-holder or a temporary tenure-holder with more than 16 years of lease to run	3 12	Temporary tenure-holder with 10 years of lease to run ...	2 5 6
Raiyat	4 0	Raiyat	4 0 0

(5) Whether and at what rates the under-raiyats of any class shall pay for the benefit to their lands. Ordinarily raiyats or under-raiyats shall not be charged for any land in which they have no right of occupancy.

(6) What minimum charges shall be borne by the landlords and tenants individually.

(7) Whether and under what conditions instalments may be allowed for recovery of cost. There shall not be more than one instalment in any one year and the number of instalments in any case shall not ordinarily exceed three, unless the total rate payable by the landlords and tenants exceeds Rs. 10 per acre, *e.g.*, if under the specimen apportionment order given in Schedule D the landlords or raiyats were liable to pay more than Rs. 5 per acre.

13. The Collector's decision on the matters referred to in rule 12 shall be embodied in the order of apportionment which shall then be published

under section 18, sub-section (*2*), together with the statements of total cost and of its distribution prepared under section 18, sub-section (*1*), clauses (*i*) and (*ii*), in the manner laid down in rule 20.

14. Specimen statements showing the calculation of the total cost of a work, the distribution of the same and the method of working out the cost-rates in a given case, and a specimen order of apportionment are given in schedule D.

15. The detailed statement under section 19 shall be published in every village of the local area by affixing in a conspicuous place a copy of the statement or of such portion of it as relates to that village, and the fact of such publication shall be proclaimed by beat of drum in the village. A specimen statement is given in schedule E.

A general notice in the form in schedule C shall at the same time be published in the manner prescribed for publication of general notices in rule 20.

16. (*1*) The recovery of costs shall be made when the Collector has confirmed the detailed apportionment statement under section 22, or when not less than one month has elapsed after the commencement of the final publication of the record-of-rights, if any, prepared or revised under section 14, whichever date is later.

(*2*) Copies of any record-of-rights, prepared or revised shall be distributed at the time of recovery amongst the landlords and tenants according to the rules for the preparation of record-of-rights under the Bengal Tenancy Act. A complete copy shall also be supplied to the applicant if he does not otherwise get such copy.

(*3*) Recovery shall be made directly from the landlords and tenants, and general notices shall first be served upon a whole village or other convenient area stating the date on which and the place at which payments will be received and copies of record-of-rights distributed.

(*4*) The isolated sums due from large landlords shall so far as possible be brought together in one account and sent to the assessee together with a notice fixing a day before which payment shall be made.

(*5*) Notwithstanding anything in the order of apportionment, the Collector may, in the case of a large demand whether from a landlord or tenant or to prevent hardship in any particular case, allow reasonable instalments for payment.

(*6*) If the sum due from a landlord or tenant is not paid and no satisfactory explanation is forthcoming, it should be recovered by the procedure under the Bengal Public Demands Recovery Act, 1913.

(*7*) If before the amounts are collected a landlord or tenant dies or transfers or abandons his estate or tenancy or any part thereof, recovery may be made from the person in possession of the former holder's interest.

(*8*) The same procedure for recovery from landlords and tenants shall be adopted whether the advance sought to be recouped has been made by the Local Government or a local authority or persons.

17. Before any lands or works can vest in any local authority or person under section 30, such local authority or person must execute a registered agreement accepting the following conditions :—

(*1*) That the land taken or acquired permanently under the Act for the purpose of a scheme and any work constructed under the Act shall be held by the local authority or person for the purposes of the said scheme.

(*2*) That should the said lands or works at any time cease for a number of consecutive months specified in the agreement to be held and used or cease to be required for the purposes of the scheme or should the maintenance of the said lands or works or any water-channels, embankments and dams included within the scheme, whether reconstructed, cleared, altered, enlarged, excavated or cut under the Act or not, be neglected for a number of consecutive months specified in the agreement or if it is desirable in the public interests that such maintenance should be undertaken by the Local Government, the Local Government may summarily enter upon and take possession of the said lands, works, etc., and thereupon the interest of the local authority or person in the said lands, works, etc., shall absolutely cease and determine or shall cease and determine for a specified period.

(*3*) That the local authority shall refund to the Local Government (*i*) the capitalised cost of the maintenance of the work as included in the cost of the scheme if the Local Government takes possession permanently, or (*ii*) the cost of the maintenance of the work as included in the scheme for the period if the Local Government takes possession for a specified period.

(*4*) The said cost of maintenance shall be recoverable under the Bengal Public Demands Recovery Act, III of 1913.

(*5*) That during the period of maintenance all profits of the scheme shall be credited to Government.

18. It shall be competent for the Collector to inspect or cause to be inspected at any time any work of which the responsibility for maintenance lies with a local authority or person, and also to enquire into any action taken for such maintenance by such local authority or person.

19. (*1*) When the Local Government maintain a work executed under this Act, recoveries on account of the capitalised cost of maintenance shall be credited to general revenues under an appropriate head; and expenditure shall be met from the budget provision which shall have been previously made for the purpose.

(*2*) When a local authority or person is responsible for the maintenance of a work, the Local Government shall make over the administration of the sum recovered as the estimated cost of maintenance to such local authority or person.

20. *Service of notices.*—The notices under section 6 (form in schedule A of these rules), the statements and particulars, including the order of apportionment, under section 18, sub-section (*2*), the notice prescribed in rule 12, and other general notices and proclamations shall, except when otherwise specifically provided, be published by affixing a copy in a conspicuous place in every village concerned, the fact of such publication being at the same time proclaimed by beat of drum in such village. A copy of the notice shall also be affixed at the offices of the Collector, the Subdivisional Officer and the District Board or other local authority concerned, and at every Munsif's Court, Registration office and Police thana within the limits of which such village is situate.

For homestead land the specimen apportionment order makes the occupants thereof pay on the basis of the chaukidari tax.)

Whereas the works in connection with the scheme specified below, which were taken up under the Agricultural and Sanitary Improvement Act, 1920, have been completed, the following order has been passed under section 18 (*1*) (*iii*) apportioning the share of the cost recoverable from landlords and tenants, thus :—

(1) A part of the said recoverable cost shall be paid by persons paying chaukidari tax under the Village Chaukidari Act, 1870, in the local area benefited as shown on the map published under section 18 (*2*), at the rate of twice the said chaukidari tax payable by them in the year.

(2) The remainder shall be recovered as specified below :—

(i) Rates of Rs. 10 and Rs. 5 per acre shall be levied on the lands benefited according as the degree of benefit is 16 annas or 8 annas ; and of each of these rates the raiyats shall pay one-half and the landlords of all grades together one-half.

These allowances will only be paid after production of evidence that the Officer has engaged a First Class *passage. An officer who prefers it can have a First Class passage taken for him by the India Office in lieu of receiving a passage allowance. Applications giving proposed dates of sailing should be made to the Secretary, Judicial and Public Department, India Office, London, S.W. 1.*

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iii) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all monies he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Indian Civil Service of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations, but may ultimately be affected by appointments made by the Secretary of State under the Temporary Provisions Act, 1915.*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

FOREST BRANCH.

NOTIFICATION.

No. 944For.—The 8th February 1921.—The following regulations for the appointment, in India, of Probationers for the Imperial Forest Service in 1921, are published for general information.

W. S. HOPKYNS,
Secretary to the Govt. of Bengal (offg.).

Regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1921.

Applications are invited from natives* of India and Burma for probationerships for the Imperial Forest Service. Candidates of European or Anglo-Indian descent must be unmarried and, if appointed as probationers, must remain unmarried until completion of the prescribed course of training and their return to India.

2. Applicants, who should not be more than 23, nor less than 19, years of age on 30th June 1921, must possess an *Honours*, or a first class, degree, in any subject, of a University incorporated by law in British India.

3 Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Testimonials or other recommendations should not be attached to the applications.

4. Applications, which should be addressed to the Secretary to the Government of India, Department of Revenue and Agriculture, Simla, *through the Revenue Secretary of the Local Government concerned*, in the case of residents in British India, *and through the Political Officer, or Agent* in the case of residents in Indian States, must be in the form attached to these regulations and *must reach Simla not later than the 15th May 1921*. Copies of the regulations and of the forms of application may be obtained from the Secretary to the Government of India, Revenue and Agriculture Department, the Revenue Secretaries to the Governments of Madras, Bombay, Bengal, the United Provinces, the Punjab, Burma, Bihar and Orissa, Assam, Central Provinces, the Chief Commissioners of Coorg, Ajmere, Delhi; the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province; the Agent to the Governor-General, Baluchistan, and Political Officers of Indian States.

5. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board.

6. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

7. Candidates, who from their papers and from the remarks made by Local Governments, or Political Officers or Agents, in forwarding their applications, appear *primâ facie* to be suitable will be summoned by the Government of India to undergo a written qualifying examination in English (the test will be by precis writing as well as by an essay: deductions of marks will be made for faults of writing and spelling), Mathematics (Arithmetic; Algebra up to and including the Binomial theorem; Plane Trigonometry up to and including the solution of triangles and the theory and use of Logarithms), and Science (candidates must appear for examination in any two of the following subjects:—Chemistry, Physics, Botany, Zoology, Geology and Physiology and must, with their applications, state which two they have selected). The standard of the papers set in the Science subjects will be that of the B. A. (Honours in Science) degree of the Madras University. These examinations will be held on 15th, 16th and 17th June 1921 at local centres,

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territory of Indian Princes tributary to, or in alliance with, His Majesty, of parents habitually resident in India and not established there for temporary purposes only.

namely, Rangoon, Calcutta, Allahabad, Lahore, Bombay and Madras. Candidates must state in their applications the centres at which they wish to appear if called up for examination. This choice once made may not be varied.

Copies of the papers in English and Mathematics set in the qualifying examination of 1920, may be obtained from the Secretary to the Government of India, Department of Revenue and Agriculture.

8. Candidates who have satisfactorily undergone the tests referred to in paragraph 7 will be summoned by the Government of India to appear at Dehra Dun in the first week of August 1921, where they will first be required to undergo a physical test, which will consist of an excursion extending over about 15 to 16 miles and of such a nature as to test candidates' activity and power of endurance. Those completing this test satisfactorily will next be subjected to a strict medical examination, in which particular stress will be laid on good vision and hearing; when, if passed as fit for the work of the Forest Department, they will be interviewed by a selection board appointed by the Government of India.

9. Candidates will not be entitled to any travelling allowance for journeys performed in connection with these regulations, with the exception that those summoned to appear at Dehra Dun for the physical test, medical examination and interview, referred to in paragraph 8, who come from a greater distance than 200 miles for this purpose, will be paid half the cost of a second class fare [by rail or (and) by sea] for the journeys to, and from, Dehra Dun. This allowance will be paid by the President, Forest Research Institute and College, Dehra Dun, before the candidates leave Dehra Dun.

Candidates must make their own arrangements for board and lodging at Dehra Dun, but the President, Forest Research Institute and College, will endeavour to assist those who communicate with him on this subject.

10. Those finally selected as a result of the examinations, tests and interview prescribed in paragraphs 7 and 8, will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. Candidates selected for training will be provided with second class passages to England, but the cost of travelling to the port of embarkation will not be paid.

11. *Period of probation.*—Before appointment to the Imperial Forest Service a probationer will be required—

(1) to have undergone, and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in Forest Engineering and, if required, in certain other special subjects, namely, Systematic Botany of Indian Trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

12. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University and on practical instruction.

13. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £200* per annum, not exceeding a total of £400. These payments are ordinarily made on the following dates in each year:—

On 1st December	£60
On 1st March	£60
On 1st June	£80

*This allowance is unlikely to be sufficient to meet all the needs of a probationer, who should be in a position to provide himself with at least another £150 per annum from other sources.

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials, at the centres visited, will also be paid by the Secretary of State.

The grant of allowances is subject to the following conditions:—

(*a*) that the progress of the probationer in his studies is satisfactory;

(*b*) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 16 or failing to join the Indian Forest Service at the end of the period of probation.

14. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

15. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 11 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided that they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council, and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

16. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

17. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free 1st class passage to India.

18. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

19. *Promotion and pension.*—Promotion and pension are governed by the regulations laid down by the Government of India, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government.

* Probationers will be required to give security to the Local Government or Political Officer through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding pensions is contained in Appendix III.

NOTICE UNDER THE BENGAL ELECTORAL RULES.

IN the Court of the Commissioners appointed under section 34 (2) (*a*) of the Bengal Electoral Rules at Berhampore (Murshidabad).

G. B. MUMFORD,
President of the Commissioners.

JALPAIGURI, *the 9th February 1921.*

Case No. 1 of 1921 under Bengal Electoral Rules.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL,

CALCUTTA.

Election petition, Annoda Prosad Sanyal of Berhampore town, in the district of Murshidabad, Elector No. 1881 in the Electoral Roll of district Murshidabad, petitioner, *versus* (1) Babu Surendra Narayan Sing, of Nehalia, in subdivision Lalbagh, district Murshidabad, (2) Babu Ramanimohan Sen, of Sayedabad thana, Berhampore town, district Murshidabad, (3) Babu Anil Kumar Chatterjee, of Berhampore, district Murshidabad, (4) Babu Jnanendra Narayan Chaudhuri, of Nimtita, subdivision Jangipur, district Murshidabad, (5) Babu Kali Krishna Banerjee, of Gorabazar, district Murshidabad, *respondents.*

The humble petition of Annoda Prosad Sanyal, Elector No. 1881, in the Electoral Roll of the district Murshidabad in Bengal

MOST RESPECTFULLY SHEWETH:—

I. That the aforesaid respondents stood candidates for election as a member of the Bengal Legislative Council from the non-Muhammadan constituency in the district of Murshidabad in the Presidency Division.

II. That the votes were recorded on the 3rd and 6th December and they were counted by the District Magistrate on the 10th instant, and the result of the counting is given below:—

1.	Babu Surendra Narayan Sing	... ...	3,178 votes.
2.	„ Ramanimohan Sen	... ...	2,440 „
3.	„ Anil Kumar Chatterjee	... ...	2,029 „
4.	„ Jnanendra Narayan Chaudhuri	...	720 „
5.	„ Kali Krishna Banerjee	... ...	353 „

III. That the District Magistrate on the said 10th instant declared Babu Surendra Narayan Sing as elected.

IV. That Your Excellency's petitioner begs most respectfully to submit that Babu Surendra Narayan Sing, the returned candidate, secured a very large number of votes by corrupt practice. A synopsis is given below :—

1. Payment of bribe to voters in the shape of cash money by the returned candidate's agents and men.

2. Payment of money by the returned candidate and his agents or promises to pay to the naibs and gomosthas of some zemindars and talukdars, to secure votes.

3. Payment of money in Government Currency Notes at Roghunathganj to an influential man for securing votes for the returned candidate, by the candidate himself.

4. Promises of payment of money by the returned candidate's men to various parties at Lalbagh, Dhulyan, Barala, Jangipore, Sagardighi, Panchthupi, Jiaganj, Baluchar, Murshidabad and various other places for different purposes, viz., theatricals, jatras, library, school building, and to secure votes

5. Treating by the returned candidate's agents and men of the voters on the 3rd and 6th instant in very expensive and luxurious ways with *poloa* and sweetmeats in one polling station and *luchis* and sweetmeats in many other polling stations.

6. Publication by the returned candidate and his agents and others with his connivance in the local newspaper, "Murshidabad Hitaishi" of statements of facts regarding the character and conduct of other candidates, which were false and which the returned candidate or his agents did not believe to be true.

7. Voluntary interference by the returned candidate's agents with the right of electors to vote independently by the publication of leaflets and otherwise.

V. That Your Excellency's petitioner has come to learn that on the 3rd of December 1920 when the poll for some wards within the Murshidabad Municipality was taken at the municipal office there was no enclosure in the polling ground and the polling station was not closed after the second hour viz., 3 P.M., with the result that many electors came and were allowed to vote illegally after 3 P.M., although there was no such enclosure.

VI. That Your Excellency's petitioner has come to learn that the returned candidate Babu Surendra Narain Sing, some time before election, came to see Babu Anil Kumar Chatterjee, who was a rival candidate, and asked him not to stand as a candidate and to withdraw in his favour. Your Excellency's petitioner has further come to learn that the said Babu Surendra Narayan Sing represented falsely to Babu Anil Kumar Chatterjee that Babu Ramanimohan Sen, another rival candidate, would withdraw in his favour. Babu Anil Kumar Chatterjee not having agreed not to stand as a candidate Babu Surendra Narayan Sing threatened him saying that he would never allow Babu Anil Kumar Chatterjee to be returned and would spend any amount of money for that purpose and for the purpose of being elected himself.

VII. That on the facts stated and under the circumstances mentioned above Your Excellency's petitioner humbly and respectfully prays that—

(*a*) Babu Surendra Narayan Sing's election be declared void and be cancelled, and

(*b*) Babu Ramani Mohan Sen, the candidate, who got the next largest number of votes, be declared elected.

VIII. That Your Excellency's petitioner begs to deposit herewith a 3½ per cent. G. P. Note numbering 152526 of 1900-01 of the face-value of Rs. 2,000, the market value of which is more than one thousand rupees, as security for costs and respectfully prays that Commissioners may be appointed by Your Excellency for the trial of the petition.

RESOLUTION.

PENSIONS AND GRATUITIES.

Delhi, the 1st February 1921.

THE Government of India have had under consideration for some time past the question of the rate of exchange at which pensions and annuities fixed in sterling, whether paid from general revenues or from family pension funds, should be converted into rupees when paid in India. Before the war the majority of these pensions were paid at a fixed rate of 1*s.* 4*d.* to the rupee, which was the rate of exchange for the adjustment of financial transactions between the British and the Indian Exchequers. When the rate of exchange first rose during the war to 1*s.* 6*d.*, this rate was adopted for the adjustment of financial transactions between the British and the Indian Exchequers ; but as regards pensions fixed in sterling, it was decided that for so long as the exchange value of the rupee for internal transactions remained at 1*s.* 4*d.*, they should continue to be paid at that rate. They have accordingly been paid at that rate ever since. The Government of India are of opinion that the time has now come when temporary arrangements of this kind should cease and matters should be placed upon a more regular basis. They have accordingly reconsidered the whole question in consultation with

the Secretary of State and are pleased to lay down, with his approval, the rules, a copy of which is appended to this resolution, governing the rate of exchange at which pensions fixed in sterling, including Indian Civil Service annuities, shall in future be converted into rupees.

2. It is requested that the provisions of rule 8 may be brought prominently to the notice of all persons appointed hereafter by local Governments to posts which qualify for pensions expressed in sterling.

3. A copy of the necessary amendments which will be made in the Civil Service Regulations is appended to this resolution.

Ordered that the Resolution be published in the *Gazette of India*.

J. E. C. JUKES,
Joint Secretary to the Government of India.

Rules governing the rate of exchange at which pensions fixed in sterling, including the Indian Civil Service annuities, shall in future be converted into rupees.

Officers of the above classes entering Government service in future, will, if they reside in India, have their sterling pensions converted at the current rate of exchange.

7 All pensioners of the Indian Civil Service who are not covered by rules 3, 4 and 5 above, may, at their option, draw their pensions in India either at the rupee rate sanctioned by statute 37, Vict., Cap. 12, as reproduced in Article 561 of the Civil Service Regulations, or at the current rate of exchange.

10. All widows and orphans, already in receipt of pensions from the Indian Civil Service Family Pension Fund, the Indian Military Service Family Pension Fund or the Indian Military Widows' and Orphans' Fund whose pensions are at present being converted at 1*s.* 4*d.* to the rupee, will continue to draw them at that rate.

11. The pensions of widows and orphans who receive pensions, fixed in sterling only, from pension funds not mentioned in the foregoing rules, to which fresh subscribers are not now admitted, as well as of pensioners under the Indian Civil Service Family Pension Fund, the Indian Military Service Family Pension Fund or the Indian Military Widows' and Orphans' Fund, who are dependants of persons now in the service will in future be converted at the current rate of exchange subject to the proviso that the conversion rate from sterling to rupees, when the pension is drawn in India, will not be less favourable than 1*s.* 8*d.* to the rupee.

The following notifications issued by the Government of India in the Foreign and Political Department published in the *Gazette of India, Extraordinary*, dated the 8th February 1921, are republished for general information.

Chief Secretary
to the Government of Bengal.

NOTIFICATIONS.

Delhi, the 8th February 1921.

No. 261R.—The following Royal Proclamation by His Imperial Majesty the King-Emperor, dated the 8th February 1921, is published for general information:—

BY THE KING-EMPEROR.

A ROYAL PROCLAMATION.

George the Fifth, by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

To My Viceroy and Governor General, and to the Princes and Rulers of the Indian States: Greeting.

1. In My Royal Proclamation of December 1919 I gave earnest of My affectionate care and regard for the Ruling Princes and Chiefs of the Indian States by signifying My assent to the establishment of a Chamber of Princes. During the year that has since passed My Viceroy and many of the Princes themselves have been engaged in framing for My approval a constitution for the Chamber and the rules and regulations necessary to ensure the smooth and efficient performance of its important functions. This work is now complete, and it remains for Me to take the final steps to bring the Chamber into being, in the confident hope that the united counsels of the Princes and Rulers assembled in formal conclave, will be fruitful of lasting good both to themselves and their subjects, and by advancing the interests that are common to their territories and to British India, will benefit My Empire as a whole. It is in this hope that I have charged My revered and beloved Uncle, His Royal Highness the Duke of Connaught and Strathearn, to perform on My behalf the ceremony of the inauguration of the Chamber of Princes.

2. It is My firm belief that a future full of great and beneficent activities lies before the Chamber thus established. To the Princes, long versed in the arte of government and statesmanship, it will open still wider fields of Imperial Service. It will afford them opportunities, of which, I am convinced, they will be prompt to avail themselves, of comparing experience, interchanging ideas, and framing mature and balanced conclusions on matters of common interest. Nor will less advantage accrue to My Viceroy and the officers serving under him, to whom the prudent counsels and considered advice of the Chamber cannot fail to be of the greatest assistance. The problems of the future must be faced in a spirit of co-operation and mutual trust. It is in this spirit that I summon the Princes of India to a larger share in My Councils. I do so in full reliance upon their devotion to My Throne and Person, proved as it has been both in long years of peace and in the terrible ordeal of the Great War, and in the confident anticipation that by this means the bonds of mutual understanding will be strengthened and the growing identity of interest between the Indian States and the rest of My Empire will be fostered and developed.

3. In My former Proclamation I repeated the assurance, given on many occasions by My Royal Predecessors and Myself, of My determination ever to maintain unimpaired the privileges, rights and dignities of the Princes of India. The Princes may rest assured that this pledge remains inviolate and inviolable. I now authorise My Viceroy to publish the terms of the Constitution of the new Chamber. My Viceroy will take its counsel freely in matters relating to the territories of the Indian States generally, and in matters that affect those territories jointly with British India, or with the rest of My Empire

It will have no concern with the internal affairs of individual States or their Rulers or with the relations of individual States to My Government, while the existing rights of the States and their freedom of action will be in no way prejudiced or impaired. It is my earnest hope that the Princes of India will take regular part in the deliberations of the Chamber; but attendance will be a matter of choice, not of constraint. There will be no obligation upon any member to record his opinion, by vote or otherwise, upon any question that may come under discussion: and it is further My desire that, at the discretion of My Viceroy, an opportunity shall be given to any Prince who has not taken a part in the deliberations of the Chamber to record his views on any question that the Chamber has had under its consideration.

4. I pray that the blessing of Divine Providence may rest upon the labours of the Chamber; that its deliberations may be inspired by true wisdom and moderation; and that it may seek and find its best reward in promoting the general weal and in increasing the strength and unity of the mighty Empire over which I have been called upon to rule.

By order,

J. B. WOOD,

Political Secretary to the Government of India
in the Foreign and Political Department.

Delhi, the 12th February 1921.

PRESS COMMUNIQUÉ.

In paragraph 12 of the Home Department Resolution No. 2559 (Establishments), dated the 1st December 1920, it was stated that the number of Indians required to be recruited to the Indian Civil Service in 1921 according to the approved percentages would be obtained by nomination as in 1919 : also that a portion of the total number of vacancies for Indians in 1920 had already been filled in 1919. With the approval of the Secretary of State, the Government of India have decided to appoint twelve Indians to the Indian Civil Service by nomination this year in order to fill up all vacancies for Indians up to 1921. The rules under which these appointments will be made are reproduced below :—

INDIAN CIVIL SERVICE.

Appointments (in India) otherwise than by Open Competitive Examination.

The Secretary of State for India in Council, in pursuance of the powers conferred upon him by section 1 of the Indian Civil Service (Temporary provisions) Act, 1915 (5 & 6 Geo. V., c. 87), hereby makes with the advice and assistance of the Civil Service Commissioners, the following provisional rules for the appointment during the year 1921 to the Indian Civil Service otherwise than by the annual Open Competition (which will still continue to be held) of natives of India and Burma. It will rest with the Government of India to determine whether candidates are qualified in respect of nationality, age, character and education, as defined in the following Regulations :—

1. (*a*).—Every candidate must be either a British subject or a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under section 96 (*a*) of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916.

(*b*) If the candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominion and allegiance, the father must at the time of the candidate's birth have been a British subject or the subject of a State in India and still be (or have continued to be until his death) a British subject or a subject of such State,

2. Every candidate must have been born on or after the 2nd August 1896, and on or before the 1st August 1900.

3. Every candidate must be of good moral character and sound physique.

4. Every candidate must produce satisfactory evidence that he possesses a degree in Arts or Science of an Indian or British University, or has passed the examination for the higher diploma of the Mayo College, Ajmer, or the diploma of the Aitchison Chiefs' College at Lahore.

5. Any person who possesses the qualifications prescribed in the foregoing rules is eligible to apply for nomination, whether he be already in Government service or not.

6. Every candidate, being a British subject, must submit to the local Government of the Province in which he resides, an application in the form annexed to these rules, together with the fee prescribed in that form.

7. Every candidate, being a ruler or subject of a State in India who is qualified under rule 1, must submit his application through the Durbar of the State to the local Government of the Province in which he wishes to serve.

8. Candidates will be nominated by the Government of India on the recommendation of the local Government.

9. Candidates nominated by the Government of India will be accepted by the Secretary of State for India in Council as Selected Candidates for the Indian Civil Service, subject to any further enquiries that he may find it necessary to institute, and will be required to undergo a period of probation for two years at a College or University in the United Kingdom approved by the Secretary of State. Selected candidates will be entitled to free passages to and from the United Kingdom and will be paid an allowance at the rate of £200 sterling per annum during the period of probation, subject to good conduct. At the end of this period of probation they will be tested by the Civil Service Commissioners, or by an authority in India specially empowered in this behalf, in such subjects as may be prescribed and in riding. They will not be appointed to the Indian Civil Service until they have been certified to have fulfilled these tests.

10. Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Spontaneous recommendations from persons who are not themselves acquainted with the candidate's work at School, or at the University, or otherwise, will be disregarded.

11. In pursuance of section 2 of the Rules Publication Act, 1893 (56 & 57 Vict., c. 66), the Secretary of State for India in Council certifies that on account of urgency, the foregoing rules are made as provisional rules to come into operation forthwith

II. A candidate who is qualified under the foregoing rules and who desires to apply should obtain the requisite form from the Chief Secretary to the Local Government in whose jurisdiction he resides (or in the case of a candidate residing in an Indian State, to the local Government under which he wishes to serve) and submit his application to that officer as prescribed in rules 6 and 7 so as to reach him not later than the 31st March 1921.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Report on the Cotton Crops of Bengal, 1920-21.

(NOTE.—On an average of the five years ending 1918-19, the area under the Cotton Crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts, in the Tripura State, and, to a small extent in other districts. The "late" crop is unimportant and is mainly grown in Bankura and Midnapore.

Character of the season.—The weather was generally unfavourable for the early crop throughout, especially during the months of September and

October, when excessive rainfall considerably affected the outturn. The late crop, on the other hand, fared well up to the first part of October, but subsequent drought has affected what would otherwise have been a good crop.

Area sown.—The total area sown with the early crop is returned at 68,435 acres and that with the late crop 1,707 acres, against 66,693 and 2,159 acres, respectively, in the corresponding forecast of last year.

Outturn.—The estimated outturn of the early crop is returned at 19,978 bales this year against 23,613 bales in the corresponding forecast of last year. The outturn of the late crop is estimated at 892 bales this year against 999 bales in the corresponding forecast of last year.

(1) The weather was not favourable. The date of harvesting of the early crop was normal.
(2) The weather was not favourable. Heavy rainfall has considerably damaged the early crop.
(3) The weather has been generally fair.
(4) The weather and general condition of the crop were fair. The date of harvesting was normal.
(5) The condition of the crop was not favourable owing to untimely rainfall which hindered flowering. The decrease in the estimated outturn in this forecast is due to the fact that estimates for two divisions have fallen much below the expectations. The date of harvesting was normal.
(6) The weather has not been favourable except in Tippera where it is reported to be generally good.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1920-21.

(Note—On an average of the five years ending 1918-19, the area under winter rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the second forecast, the season was good for the broadcast, and fair for the transplanted, crops. The period covered by this forecast is that of the harvest, during which time the weather conditions were favourable for field operations.

Acreage.—The total area under the winter rice crop as returned by the District Officers for this year is 15,343,800 acres as against 15,394,700 acres in the second forecast of this year and against 15,606,100 acres in the final forecast of last year. The decrease of 50,900 acres, since the second forecast, is due mainly to revision of estimates in Malda.

Outturn.—From the district returns appended, it will be seen that the district of Dacca returns more than a normal crop (*i.e.*, 110 per cent.), the districts of Midnapore, Hooghly, Howrah, Faridpur, Bakarganj, Chittagong and Noakhali return a normal crop, and fourteen districts report a crop varying from 75 to 92 per cent. The remaining five districts (viz., Nadia, Murshidabad, Birbhum, Dinajpur and Malda) report a crop as low as between 58 and 67 per cent. As compared with the second forecast a better crop has been harvested in the districts of Midnapore, Hooghly, Faridpur and the Chittagong Hill Tracts, but in Nadia, Birbhum and Dinajpur the outturns have fallen a little below the previous estimates. In the remaining districts there has been no change since the second forecast.

According to the above estimates, the outturn for the whole province works out to 87 per cent. of the normal, but in consideration of the favourable weather conditions during the harvesting period I am inclined to think that a 90 per cent. crop has been reaped as was anticipated in the second forecast. Accepting 90 per cent. as the provincial outturn, the gross yield of the winter rice crop for the province on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 6,341,100 tons this year against 6,449,500 tons reported in the corresponding forecast of last year.

Director of Agriculture, Bengal.

Third and Final Report on the Winter Rice Crop of Bengal, 1920-21.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		The date by which the harvesting generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1919-20).	This year (1920-21).	Last year.	This year.		
	Acres.	Acres.	Acres.				
24-Parganas ...	1,041,500	825,100	813,900	92	83	November. Normal ...	The weather was not favourable all round. The drought partly damaged the crop and affected the outturn.
Nadia ...	136,800	130,100	160,900	67	62	November to December. Normal.	Since the submission of the second forecast, the weather was not favourable owing to damages caused by drought which further reduced the outturn.
Murshidabad ...	351,400	318,700	296,300	83	67	November. Normal ...	The weather was not favourable on the whole. Late and untimely rain in the beginning, and continued drought later on, stunted the growth of the crop and caused damage to the extent of 33 per cent.
Jessore ...	568,100	455,500	459,100	83	75	Ditto ...	The weather was not favourable. About 33 per cent. of the crop was damaged by flood in the Narail subdivision and by want of timely rain in other parts of the district.
Khulna ...	826,200	702,900	710,500	83	93	First week of November. Normal.	The weather was favourable and the growth of the crop good. Some damage was done to the crop in police-station Paikgacha, Assasuni and Tala for want of timely rain and to influx of saline water.
Burdwan ...	874,800	786,000	677,700	75	63	End of November. Normal.	Some damage was done by drought in Asansol subdivision. Insufficient rain and drought account for the fall in outturn below the normal.
Birbhum ...	601,600	601,500	563,000	92	67	Middle of November. Normal.	Want of sufficient rainfall accounts for the fall in outturn.
Bankura ...	510,600	525,000	525,000	125	85	Last week of October. Normal.	The weather was not favourable. Insufficient rainfall in September and October affected the crop and caused damage to the extent of about 17 per cent.
Midnapore ...	1,567,100	1,549,200	1,617,400	83	100	December. Normal ..	The increase in area compared with last year was due to timely rainfall. The weather was favourable. There was slight damage owing to floods throughout the district.
Hooghly ...	276,700	206,400	209,300	70	100	Middle of November. Normal.	Slight damage by flood was reported from parts of the Arambagh subdivision, and in certain areas in the Sadar subdivision the crop failed for want of rain, while in other areas both in the Sadar and Arambagh subdivisions the outturn was above the normal. On the whole, a normal outturn was reaped.
Howrah ...	125,300	119,500	119,700	83	100	End of November. Normal.	The weather was favourable on the whole. The damage done by flood was made good by retransplantation. A normal outturn was reaped.
Rajshahi ...	822,700*	656,300	680,000	92	75	Middle of November. Normal.	Owing to want of timely rain, transplantation was delayed and many fields were left uncultivated. Before the plants could sufficiently take root, they went under water owing to floods in September in the Naogaon subdivision. Hence the decrease in outturn.
Dinajpur ...	1,120,300	1,029,000	819,400	80	60	Not yet commenced ...	Some damage was done by flood in September. Since then the weather was favourable. The outturn is much below the normal owing to flood and late transplantation.

These amendments will come into operation from the date of the publication of this Notification.

The printing rates quoted in Chapters VI and IX, as now amended, have been sanctioned by the Government of India for a period of six months only, and such period will have effect from the date of this notification. These rates will be charged for paper-books in all appeals, other than Second Appeals, which are now pending in the Government of India Press and which will hereafter be sent to, and completed by, that Press within six months with effect from this date.

As regards Second Appeals, the paper-books now pending in the Government of India Press, or the printing of which will be completed by that Press within the said period of six months, will be printed at the rate of Re. 1-13 per page.

The above rates are liable to revision if the cost of work in the Government of India Press increases during the said period of six months.

In modification of the orders contained in the Court's notification dated the 25th August 1920, cited above, it is ordered that paper-books in all Appeals from Original Decrees (other than those preferred by the Secretary of State or by the Court of Wards) lodged before the 16th November 1920, may, if the Appellant so desires, be prepared in the office of the Appellant's Vakil under the provisions contained in Chapter VII of the Fifth Edition of the Appellate Side Rules, 1920, provided that such Appellant within ten days of the publication of the present notification in the *Calcutta Gazette* shall intimate, in writing, to the Registrar his desire that the paper-book in the appeal should be prepared in the office of his Vakil under the provisions of those rules, and shall deposit the estimating charge in the manner hereinafter provided. Such intimation shall be accompanied by the declaration required by Rule XVII (*14*) (*b*) of Chapter VII of the said Appellate Side Rules of 1920. On receipt of such intimation and declaration estimates of the cost of the preparation of the paper-book will be prepared in the office of the Court in supersession of any estimates which may have been issued previously, and will be served on the Appellant and Respondent, respectively, and the Appellant shall within one week of the service of such estimate deposit the estimating charge with the Accountant of the Court. Subject to the above modification, Vakils preparing paper-books in such appeals shall be governed generally by the provisions contained in Chapter VII of the Appellate Side Rules of 1920. Otherwise the provisions of the revised Rules will apply, as far as may be, to all pending appeals filed before the 16th November 1920.

The Rules published under the Court's said notification dated the 25th August 1920, as now modified, incorporate all amendments and additions up to the 26th February 1921 to the Appellate Side Rules contained in the Fifth Edition of those Rules.

RESOLUTION.

TRADING BY FOREIGNERS.

Delhi, the 17th February 1921.

The following rules of procedure of the Anglo-German Mixed Arbitral Tribunal constituted under Article 304 of the Treaty of Versailles, and the announcement made by the Board of Trade on the subject, published in the *London Gazette*, dated the 16th November 1920, are republished for general information :—

RULES OF PROCEDURE OF THE ANGLO-GERMAN MIXED ARBITRAL TRIBUNAL CONSTITUTED UNDER ARTICLE 304 OF THE TREATY OF VERSAILLES.

TIME FOR PRESENTATION OF CLAIMS.

1. The time within which claims are to be submitted to the Tribunal shall be as follows :—

(a) *Appeals under Article 296, Annex, paragraph 20.*

Within thirty days of the communication of the joint decision of the two clearing offices to the Appellant.

(b) *Claims under Article 297.*

Within twelve months from the date of the publication of these rules in the place at which such Claimant is residing, or within six months from the date on which the Claimant learnt that damage or injury had been inflicted on his property, rights or interests, or within six months from the date on which the Claimant learnt that restitution under section (*f*) of the said Article had been made or refused, whichever period is the longer.

(c) *Claims under Article 305.*

Within twelve months of the publication of these rules in the place at which such Claimant is residing, or within twelve months of the date on which the decision was given, or within six months of the date on which such decision came to the knowledge of the Claimant, whichever period is the longer.

(d) *In all other Cases.*

Within twelve months from the date of the publication of these rules in the place at which such Claimant is residing, with the exception of those cases provided for in Rule 22 where the limitations of time imposed by these rules are stated not to apply,

After the expiration of the times prescribed by this rule, no claim will be accepted without the special leave of the Tribunal.

2. All claims, answers and other written proceedings must be delivered or sent by post to the Tribunal Secretariat, at 21 St. James's Square, London, S. W. 1.

GENERAL RULES RELATING TO WRITTEN PROCEEDINGS.

MEMORIAL.

3. The claims shall be typewritten or printed and shall state :—

(*a*) The name, nationality, domicile and address of the Claimant.

(*b*) In cases where the Claimant is not claiming in his own right and on his own behalf, in what right he claims and the name, nationality, domicile and address of the person on whose behalf he is claiming.

(*c*) In cases where the claim is made by a company or body corporate, its name, nature and domicile and place of incorporation (if any), and the address of its office or chief offices; and in cases where the claim is made by an association not being a company or body corporate (whether recognised by the law of the country where it is domiciled as a legal entity or not), in addition to the above, the names and nationality of all persons who are partners of such association or interested therein.

(*d*) Whether the claim is brought against a Government or national, and in the latter case giving the name and last known address of such national, or if such national be a company, body corporate or other association, the address of its chief office, if known, or if the address of the chief office be not known, of the office of which the address is known to the Claimant.

(*e*) The nature of the claim, the relief sought and, where the relief sought is pecuniary, the amount claimed.

(*f*) Under which article and paragraph of the Treaty the claim is made.

(*g*) The name and address of the solicitor or other authorised representative (if any) of the Claimant.

(*h*) The person to whom, and address at which, all communications are to be sent on behalf of the Claimant.

4. The claim shall be accompanied by a concise statement of the facts and an exhibit of copies of any documents relied upon in support thereof.

5. The claim accompanied by such statement and exhibit shall be known as and is hereinafter referred to as the memorial.

6. Six true copies of the memorial shall be supplied with the memorial. The memorial shall, unless otherwise agreed by the parties and permitted by the Tribunal, be in English; and if the memorial be not in English, it shall be accompanied by an English translation and at least three of the copies shall be copies of such translation.

7. On receipt of the memorial and six copies thereof, the Secretariat will acknowledge such receipt to the Claimant, and will transmit one copy to the Government Agent of the Claimant and two copies of the memorial to the Government Agent of the Respondent. Such last-mentioned Agent shall acknowledge the receipt thereof to the Secretariat and shall cause one copy of the memorial to be served on the Respondent.

8. Except in cases provided for in Rule 35 (*a*), the receipt of the memorial by such Agent shall be sufficient notice to the Respondent of the claim made against him, and the Respondent shall, within sixty days after the receipt of the memorial by such Agent, present his answer to the Tribunal. If no answer be presented, the case may be proceeded with in the absence of the Respondent as provided in Rule 33.

RESPONSE.

9. Rule 3 (*a*), (*b*), (*c*), (*g*) and (*h*) and Rule 4 shall apply *mutatis mutandis* to the answer; and in addition the Respondent must in his statement of facts accompanying the answer, if he desires to dispute the allegations in the memorial, expressly deny or otherwise answer or explain the same. Any facts not dealt with by the Respondent will be treated as admitted. The answer shall be accompanied by an exhibit of copies of documents relied on.

10. The answer accompanied by such statement and exhibit shall be known as and is hereinafter referred to as the response.

11. Six true copies of the response shall be supplied with the response to the Tribunal and the provisions of Rule 6 shall apply to the response.

12. On receipt of the response and the six copies thereof, the Secretariat will acknowledge such receipt to the Respondent and will transmit one of such copies of the response to the Claimant (who shall acknowledge the receipt thereof to the Secretariat), and one to the Government Agent of the Claimant and one to the Government Agent of the Respondent.

13. Should the Respondent desire to make a claim against the Claimant, he must do so by a separate claim, and not by a counter-claim, but the Tribunal may, if it thinks fit, hear both claims at the same hearing.

14.—(*a*) If the Respondent objects to the jurisdiction of the Tribunal to entertain the claim or any part thereof, he shall specifically take such objection in his answer, and the Tribunal may, if it thinks fit, consider and decide the point before further dealing with the case.

(*b*) If the Tribunal should be of opinion that under the provisions of the Treaty its jurisdiction may be excluded, or if a Respondent objects to the jurisdisdiction of the Tribunal to entertain the claim or any part thereof, the Tribunal may, if it thinks fit, require the party raising this objection to satisfy the Tribunal that its jurisdiction is excluded, or may require evidence on the point to be forthcoming from an expert of the law of the country concerned, or may make such other order as may seem just, and may, if it thinks fit, adjourn the case until such evidence has been obtained or until the order has been carried out.

(*c*) It shall be the duty of the respective Government Agents to inform the Tribunal if they have grounds for believing that the jurisdiction of the Tribunal is excluded.

REPLY AND REJOINDER.

15. If the Claimant desires merely to deny the facts alleged in the response it is not necessary for him to present a reply, but, if the Claimant desires to answer the facts alleged in the response otherwise than by way of denial, a reply must be sent to the Tribunal within thirty days from the receipt of the response by the Claimant, who shall with the reply supply six copies thereof to the Tribunal. The Secretariat will acknowledge receipt thereof to the Claimant and will transmit one copy of the reply to the Respondent, who shall acknowledge the receipt thereof to the Secretariat, and one copy to each of the Government Agents. Except in such cases, no reply shall be allowed.

If the Respondent desires merely to deny the facts alleged in the reply it is not necessary for him to present a rejoinder, but if the Respondent wishes to answer the facts alleged in the reply otherwise than by way of denial, a rejoinder must be presented to the Tribunal within thirty days from the receipt of the reply by the Respondent, who shall with the rejoinder supply six copies to the Tribunal. The Secretariat will acknowledge the receipt thereof to the Respondent and will transmit one copy of the rejoinder to the Claimant and one copy to each of the Government Agents.

Except in such cases no rejoinder shall be allowed and no further written proceedings after the rejoinder shall be allowed, other than the written argument provided for by Rule 28, except by special leave of the Tribunal.

The provisions of Rule 6 shall apply to the reply and to the rejoinder.

JOINT CLAIMS AND JOINDER OF PARTIES.

16. Where two or more persons are jointly interested in the same claim, they shall present a joint claim, and where the relief sought is sought against two or more persons jointly, the claim shall be made against them jointly.

17.—(*a*) If the Respondent contends that any person not joined as Claimant ought to be so joined in accordance with the preceding rule, he may within twenty days of receipt of the memorial send in, in duplicate, a notice to the Secretariat naming such person and requiring the Claimant to join such person as Claimant and stating the reason why he requires such joinder. The Secretariat will forward such notice to the Claimant, who shall within thirty days from the receipt thereof state whether he consents to and will effect such joinder, in which case all proceedings shall be stayed until it is effected, or whether he refuses or is unable to effect such joinder, stating his reasons for such refusal or inability.

(*b*) If the Claimant consents to and is willing to effect such joinder, the written consent of the person to be joined shall be sent to the Tribunal within twenty-one days, and the Secretariat shall thereupon amend the memorial by adding the names of such person as Claimant, and notice of such joinder will be sent to the Respondent and the Government Agent of the Claimant and Respondent, and all further proceedings shall be continued as if such joinder had been made from the commencement.

(*c*) If the Claimant fails to answer the notice as provided by rule 17(*a*) or refuses or states that he is unable to effect such joinder or if the written consent is not sent as provided by Rule 17(*b*), notice thereof shall be given by the Secretariat to the Respondent, who may within ten days apply to the

Tribunal to stay all proceedings until such joinder be effected. The Secretariat shall give notice of such application to the Claimant, and such application shall be heard by the Tribunal on a date to be fixed by the Tribunal not less than fourteen days after notice of such application has been sent to the Claimant.

18. If the Tribunal is satisfied that any person refuses to join as Claimant, although he ought to join, the Tribunal may allow the case to proceed without such joinder, but in that case the Tribunal may refuse to entertain any claim in the future by such person with respect to the subject-matter of the claim in the presenting of which he ought to have joined.

19. If any person proceeds against some only of the persons jointly liable to him on the same claim and the Tribunal decides the case whether in favour of or against the Claimant, the Tribunal may refuse to entertain any claim in the future by such person against the other person or persons so jointly liable.

20.—(*a*) If a Respondent contends that some other person who is not joined as Respondent is jointly liable with him to answer the claim, he may within twenty days after the receipt of the memorial send a notice to the Secretariat that he requires such person to be joined as Respondent, giving his name and address, and stating the reasons why he requires him to be joined ; and with such notice shall send a sufficient number of copies to enable the Secretariat to send one to the Claimant and to each of the persons whom the Respondent requires to be joined. The Secretariat will thereupon send such notice to the Claimant and to each of the persons named by the Respondent, and the claimant and each of the said persons shall reply within ten days whether they consent to such joinder or not. In the event of the Claimant and each of such persons consenting to the joinder, the Secretariat will amend the memorial by adding them as parties, and the Claimant shall cause copies of the memorial to be served on each of such persons, and all future proceedings shall be continued as if such joinder had been made from the commencement.

(*b*) If either the Claimant or any of such persons do not consent to the joinder within ten days, the Secretariat shall notify the Respondent accordingly, and the Respondent may within ten days apply to the Tribunal to stay all proceedings until such joinder be effected. The Secretariat shall give notice of such application to the Claimant and such other person or persons, and such application shall be heard by the Tribunal on a date to be fixed by the Tribunal not less than fourteen days after notice of such application has been sent to the Claimant and such person or persons as aforesaid.

21.—(*a*) If any person not being a party claims to have a legitimate interest in prosecuting or resisting the claim, he may apply to the Tribunal to be joined as Claimant or Respondent as the case may be, or to be allowed to intervene in the case in such manner as the Tribunal may direct.

(*b*) If a Respondent contends that he is entitled to some right over against some other person in reference to the claim brought against him he may give such person notice of his claim against him and at the same time serve him with a copy of the memorial. Such person may thereupon apply to the Tribunal to be joined as Respondent or to be allowed to intervene in the case in such manner as the Tribunal may direct. If such person does not intervene and the Tribunal should be of opinion at the hearing that there are grounds for coming to the conclusion that the Respondent may succeed in his claim against such person, the Tribunal may, if it decides in favour of the Claimant, stay execution in order to enable the Respondent to prosecute his claim against such person, upon such terms as to security and otherwise as the Tribunal may think just.

SPECIAL RULES FOR PARTICULAR CASES.

22. In addition to the above general rules, the following rules shall be observed in the undermentioned cases :—

(1) Cases under article 305.

The person alleging that he is prejudiced by the decision shall be the Claimant and the other party to the cause or proceeding in which the decision was given or, if there be no such party, the Government shall be

Respondent. The claim shall be accompanied by a copy of the decision and shall state in what respect the decision is impugned, with which Section or Sections of the Treaty it is alleged to be inconsistent and in what respect and what relief is claimed. The Claimant may also accompany his claim by copies of any essential written proceedings of the case in which the decision was given, authenticated in the manner prescribed by the law of the country to which the Court belongs. The Tribunal may of its own motion require the record of the Court to be transmitted to the Tribunal and it shall then be open to the inspection of the parties and their agents.

(2) *Appeals under Article 296, Annex, paragraph 20.*

The Appellant shall be Claimant, and the party in whose favour the decision was given and the two clearing offices shall be Respondents. The claim shall state the grounds of the appeal and shall be accompanied by a copy of the decision appealed against and of all documents in the possession of the Claimant relevant to the case, and by a reasoned argument by the Claimant in support of his appeal. Together with the claim and documents, three copies thereof shall be supplied to the Tribunal, and the Claimant shall serve copies thereof on the opposite party and the Agents of the two clearing offices.

The Agent of the clearing office of which the Respondent is a national shall within thirty days of receipt of the claim supply to the Tribunal four copies of all documents relating to the case which are in his possession or power, unless the Claimant has already supplied them with his claim, and a statement of any facts found by the clearing offices. In addition, the Respondent or the clearing offices may supply a reasoned argument in writing in support of the decision of the two clearing offices.

Any of the parties (including the Agents of the clearing offices) may apply to the Tribunal to hear arguments before it, but in the absence of such application the Tribunal shall be at liberty to determine the case on the written proceedings without further argument, or to notify to the parties if it desires to hear an argument.

The Secretariat on receipt of the claim shall inform the Claimant what is the amount of deposit to be paid or security to be given, and such deposit shall be paid or security given within ten days, and in default the claim may be dismissed.

(3) *Cases under Article 296, Annex, paragraph 16.*

Where cases are referred to the Tribunal under the above provision, the procedure laid down elsewhere in these rules shall not apply. The parties shall present a case jointly to the Tribunal, or each may present a case separately. In either event the contentions of the parties shall be set out in the case or cases, which shall be accompanied by all relevant documents. Six true copies of the case or cases and documents shall be prepared and lodged with the Secretariat. The matter will be determined by the Tribunal as laid down by Article 296, Annex, paragraph 18. The limitations of time imposed by these rules shall not apply to such cases; but where the two clearing offices are unable to agree whether a debt claimed is due, or in case of a difference between an enemy debtor and an enemy creditor or between the clearing offices, and the parties to the dispute do not desire to present a case jointly, either clearing office may, within ten days after giving notice to the other clearing office of such intention, refer the case to the Tribunal under the conditions provided for by Article 296, Annex, paragraph 16. The enemy creditor or the enemy debtor may similarly, after giving twenty days' notice to the two clearing offices, refer the case to the Tribunal, unless the case shall have been referred to the Tribunal meanwhile by the clearing offices or either of them. The case shall proceed as if it had been referred to the Tribunal by the clearing offices.

CLOSE OF WRITTEN PROCEEDINGS.

23. The Secretariat will inform the respective Government Agents and parties when the written proceedings are closed.

24.—(*a*) Within twenty days after the date of the notice that the written proceedings are closed, the parties shall send to the Secretariat a statement of the witnesses, if any, whose testimony they desire, giving in

each instance the name, nationality, occupation and address of such witness, and stating whether the party desires that the testimony of such witness shall be given at the hearing of the case or whether it is desired that the evidence shall be taken upon commission, and shall at the same time furnish all parties and the Government Agents with a copy. The Tribunal will thereupon determine whether the evidence shall be taken on commission or will make such other order as seems fit. The Tribunal will before making an order hear any party or Government Agent who may desire to be heard on the matter on his forthwith applying to be heard, and will fix a date for all parties to be heard if they desire.

(*b*) Where the Tribunal orders that the witness shall be heard at the hearing, the Government Agents shall be responsible for summoning the witness in accordance with the method applicable in each case unless the Tribunal otherwise directs. Travelling expenses and subsistence money must be supplied to the witness at the expense of the party at whose instance he is summoned. The amount of the same will be fixed by the Tribunal, and must be paid in advance to the Secretariat. If the subsistence money so paid should prove insufficient, the party at whose instance the witness was summoned must pay any further amount necessary, otherwise the witness will be allowed by the Tribunal to depart.

(*c*) Where the Tribunal directs that evidence shall be taken on commission the evidence shall be returnable to the Tribunal and copies shall be supplied by the Secretariat to any party or either Government Agent or any other person interested, and in the opinion of the Tribunal entitled to the same, on application and payment.

(*d*) Where it is desired that books, documents or other objects in the possession or power of any person should be produced for the use of the Tribunal, application may at any time after the close of the written proceedings be made to the Tribunal to obtain their production. The Tribunal will thereupon, if it thinks fit, endeavour to obtain possession of such books, documents or other objects by direct request addressed to such person, and, if such request is not complied with, will take such other steps as may be requisite and desirable to ensure production. Books, documents or other objects so coming into the custody of the Tribunal shall, if the Tribunal thinks fit, be open to inspection by such persons and at such times as the tribunal shall direct.

25. Should a party or either of the Government Agents desire to inspect any books or documents in the possession, power or control of any party or of either Government Agent he shall make application to that party or Agent to produce such books or documents for inspection; and if such production is refused, application therefor may be made to the Tribunal upon ten days' notice being given to that party or Agent, and the Tribunal may make such order thereon as it thinks fit.

26. The Tribunal may of its own motion at any stage of the proceedings require evidence on any point.

27. The Tribunal may of its own motion at any stage of the proceedings require any party or either Government Agent to produce any book or document before it, or to allow any person designated by the Tribunal to examine and take extracts from any book or document in the possession of such party or Agent.

28. If in cases other than those under Article 296 any party or either of the Government Agents desires to submit a reasoned argument in writing, he may do so at any time after the written proceedings are closed, and not less than ten days before the date fixed for the hearing of the case, but such argument in writing shall be based only on facts alleged in the memorial, response, reply or rejoinder.

The submission of such written argument shall not preclude the parties or Agents submitting it from also adducing oral argument. The Tribunal reserves the right, if it shall think fit, to require in addition oral argument in cases where only written argument has been submitted.

29. The President will on the conclusion of all preliminary matters fix the date and place of hearing, and the Secretariat will inform the respective Government Agents and parties of his decision.

30. The hearing shall be in public, and the parties shall either by themselves or by counsel or other recognised advocate present their cases. In cases connected with patents the parties may by leave of the Tribunal be represented by patent agents and *Patentanwälte*. Unless otherwise ordered, the Claimant shall begin and have the right to reply.

31.—(*a*) The parties shall have the right themselves to give evidence, and shall, if required by the Tribunal, do so. Each party may call such witnesses as he pleases before the Tribunal and may question them by himself or his counsel or admitted representative. Each party shall have the right to question any witness called by the other party (including the opposite party himself) whether before the Tribunal itself or elsewhere, by himself or by counsel or other admitted representative.

If the party who does not call the witness questions him, the party who has called him may thereupon put further questions to the witness on matters arising out of the questions put to the witness by the other party. Unless the Tribunal shall otherwise order, no further questions shall be put to the witness by or on behalf of the parties. The Tribunal, however, will at any stage put any questions that it may think fit:

Provided always that a party to a case shall not be summoned or compelled to give evidence unless the Tribunal shall have given leave for such witness to be summoned or to give evidence or unless the Tribunal shall have required of its own motion that such party shall attend and give evidence.

(*b*) No oath shall be required from or administered to any witness before the Tribunal or on any Commission ordered by the Tribunal, unless the Tribunal otherwise directs.

32. The Tribunal may at any stage of the proceedings obtain a report from any person on any particular point, such person to be agreed upon by the parties or in default of agreement to be appointed by the Tribunal. The Tribunal may view any premises, locality or object if it deem such a view necessary.

33. If any party fail to appear, the case may be proceeded with in his absence, but the Agent of the Government of such party may intervene and himself take up the case, and the Tribunal may on the application of such Agent or on its own motion adjourn the case.

34. It shall be permissible for either Government to conduct the case of its national through its Agent, and such Agent may appear either in person or by counsel or other recognised advocate. Either Agent may also appear independently of the parties by himself or by counsel or other recognised advocate, and may intervene in the proceedings in such manner and at such time as the Tribunal may direct.

35.—(*a*) If the Government Agent of the Respondent after making all reasonable efforts shall be unable to cause the memorial to be served upon the Respondent as provided by Rule 7 at the expiration of twenty-one days from the receipt of the memorial by such Agent, he shall forthwith report such failure to the Secretariat, giving the reasons for such failure and stating the steps he has taken to effect service, and the Secretariat shall inform the Claimant that the Respondent has not been served.

(*b*) On the application of the Claimant, the Tribunal may thereupon, if it thinks fit, allow the claim to be proceeded with or may make such other order in the matter as it thinks fit. The Government Agent of the Respondent shall be entitled to intervence on such application being made, and the Claimant shall give ten days' notice to such Agent of such application.

36. If at any stage of the proceedings a party requires to prove any specific fact it shall be open to the party to give a notice to the other party to admit or dispute such fact. If the party to whom notice is so given disputes the fact, and such fact is subsequently established, the Tribunal may in its discretion order the party who had disputed such fact to pay the costs of proof and any other costs occasioned thereby, whatever may be the result of the case, provided always that any such admission shall only be binding upon the parties.

37. Where a claim is made against either Government, and such claim is admitted by the Government in question, it shall be competent to the parties to agree upon a form of decision setting out with sufficient detail the claim which is admitted and the payment and restitution or other remedy or relief agreed upon, and to submit the same to the Tribunal, who,

if it thinks fit, and if the Government Agent of the national claiming has not objected, will register the same as a decision, and the same shall, when registered, be deemed for all purposes to be a decision of the Tribunal: Provided that the Tribunal will not register any such decision unless the Government prove that he has submitted a true copy of the same to his Government Agent at least ten days previously. The same procedure with any necessary modification may be adopted where the claim is made against a national of either Government, provided that in such a case the Agent of neither Government has objected, and it is proved to the satisfaction of the Tribunal that the respective Government Agents have had true copies of the form of decision submitted to them at least ten days previously.

38. If in any case the parties agree upon the facts and desire the determination of the Tribunal on those facts, they shall submit an agreed statement of facts to the Tribunal and it shall be competent to the Tribunal, with or without argument, according to the desire of the parties, to determine the questions at issue, provided that the Tribunal may in any case require arguments to be presented to them :

Provided also that in all cases the assent of the Government Agents, in writing, to the correctness of the facts as stated shall be obtained, except where the claim is against a Government.

DECISION.

39. The decision of the Tribunal will in all cases be drawn up in writing and registered, and copies thereof will be sent by the Secretriat to the parties and Government Agents. The decision will also deal with costs and expenses.

40. The Tribunal reserves to itself the power to correct an error in any decision or other order arising from a slip or accidental omission, or to explain any ambiguity or other doubtful expression appearing in the decision. It shall be open to the parties or to the Government Agents to give notice of application to the Tribunal for any such correction or for any such explanation within thirty days of the publication of the decision. No such application will be heard after the expiration of that period.

41. The Tribunal reserves the right to stay execution on its decisions in any case where it appears proper to do so.

42.—(*a*) The Tribunal may require to be satisfied that all notices and communications prescribed by these Rules have been duly received. The production of a receipt from the postal authority of the posting of a registered postal packet shall be conclusive evidence of the receipt of a notice or communication by the person to whom it is addressed until the contrary is proved. In cases in which delivery by registered post is not practicable, heavy books and documents may be sent by ordinary post and unregistered or by public carrier, and, on proof of such posting or delivery to such carrier, the books or documents shall be deemed to have been received by the person to whom they were addressed, unless and until the contrary is proved.

(*b*) All communications to the parties shall be delivered at or sent to the address and to the person named by them as provided by rule 3 (*h*).

(*c*) If service or delivery as above provided should prove impracticable, the Tribunal will, upon application, give such directions as it may think fit, or may dispense with services.

43. In cases where any person is not residing in Europe, the additional time taken for any postal communications to reach or to arrive from the country in which such person is residing shall not be taken as included in the time prescribed by these rules; and further time may be granted on the application of any party where, owing to difficulties of communication or other good cause, such extension appears desirable.

Party shall include any person who has intervened in or has been allowed to take part in the case.

44. The proper expenses of witnesses will be allowed, and may be advanced by the Tribunal if called in pursuance of its order.

45. The Tribunal will permit amendments of written proceedings, extensions of time, and grant other dispensations from these rules in all such

cases as may be necessary in the interests of justice and equity, and the Tribunal reserves power from time to time to alter, abrogate, or add to these rules as experience may require.

46. These rules are supplemental to the rules of procedure relating to the Mixed Arbitral Tribunal laid down in Sections III to VII of Part X of the Treaty, and must be read in conjunction with such rules of procedure.

ANNOUNCEMENT BY THE BOARD OF TRADE.

The Mixed Arbitral Tribunal to be established between the United Kingdom on the one hand and Germany on the other hand under Article 304 of the Treaty of Versailles has been constituted and is about to begin work in London. The President of the Tribunal is Professor Eugéne Borel, a Swiss jurist and Professor of Public and International Law in the University of Geneva. The British and German members are respectively Mr. R. E. L. Vaughan Williams, K.C., of Lincoln's Inn, and Dr. jur. Adolph Nicolaus Zacharias, Senatspräsident of the Hanseatic Oberlandesgericht.

A great part of the work of the Tribunal is to decide as to debts under Article 296 of the Treaty where a difference has arisen between an enemy debtor and an enemy creditor or between the British and German clearing offices. Under Article 297 the Tribunal can determine compensation to be borne by Germany in respect of damage or injury inflicted on the property, rights or interest of British Nationals in German territory as they existed on August 1, 1914, by the exceptional war measure or measures of transfer mentioned in the Annex to that Article. The other matters within the jurisdiction of the Tribunal are set out in Articles 299, 300, 302, 304, 305 and 310 of the Treaty.

The Procedure before the Tribunal is to some extent regulated by Sections III to VII of Part X of the Treaty, but the Tribunal has settled further and more detailed rules dealing with the manner in which claims must be submitted. Printed copies of these Rules of Procedure, which have been issued in the Series of Statutory Rules and Orders (No. 2062), may be purchased, price threepence, through any bookseller, or may be obtained on application to the Secretariat of the Tribunal. They should be read in conjunction with the provisions of the Treaty of Peace Order, 1919 (Statutory Rules and Orders, 1919, No. 1517, published by H. M. Stationery Office. Price 2*d.*).

The British Government has provided a Court for the meetings of the Tribunal and an office for the Secretariat at 21, St. James Square, London, S. W. 1. Mr. Harold Russel, Barrister-at-Law, has been appointed by the Foreign Office to act as British Secretary and the German Government is also appointing a Secretary, the two to act together as joint Secretaries of the Tribunal.

The High Contracting Parties under the Treaty have agreed that their courts and authorities shall render the Mixed Arbitral Tribunal, direct, all the assistance in their power as regards transmitting notices and collecting evidence. The decisions of the Tribunal are final and conclusive. The place and time of sitting will be determined by the President of the Tribunal, and may be in London, Germany or elsewhere as the convenience of the parties or witnesses may require. The sittings will be public.

ORDERED that a copy of the Resolution be published in the *Gazette of India* and that copies of the Rules be placed on sale at the Government Press, 8, Hastings Street, Calcutta.

NOTICES TO MARINERS.

The following Notices are republished for general information.

W. K. THYNE, COMDR., R.I.M.,
Deputy Port Officer of Calcutta.

C. B. BAYLEY,
Deputy Secretary
to the Government of Bengal.

CALCUTTA, *the 19th February 1921.*

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 59 (*first publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1921), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1920 (*This Office No. 43 of 1920*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom. or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

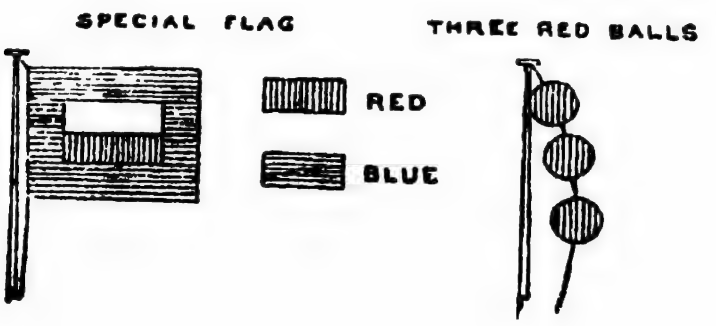
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.



Usually the Examination Steamers will fly the blue ensign, but at certain ports they will fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examination Officer:—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-sweeping operations.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. Signals that will be shown by day.

(*a*) By vessels working singly:

A black ball at the foremast head, and a similar ball at each yardarm or where they can best be seen.

Vessels showing this signal should not be approached nearer than 900 yards (822^{m}9).

(*b*) By vessels working in pairs or groups:

A black ball at the foremast head, and a similar ball at the yardarm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^{m}8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^{m}8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. Signals that will be shown by night.

As for day, except that all-round green lights will be used in a similar manner to and in place of the black ball.

DEPARTMENT OF AGRICULTURE, BENGAL.

SECOND FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1920-21.

(Note.—On an average of the five years ending 1918-19, the area under linseed in Bengal has represented 5·5 per cent., and that under rape and mustard 19·4 per cent. of the total areas under these crops in British India.)

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and the Presidency Divisions. In the other two divisions the cultivation is small.

The total area under these crops (excepting sesamum, for which separate forecasts are issued) is returned as 1,037,500 acres this year against 1,294,200 and 1,266,200 acres (now revised) respectively, in the corresponding and final forecasts of last year. The decrease is mainly due to unfavourable weather at sowing time and to revision of estimates in the district of Mymensingh.

Character of the season.—The season at sowing time was generally unfavourable owing to excessive moisture in the soil. The crops in their early stages recovered from the effects of wet weather for a while but prolonged drought which extended up to the middle of January adversely affected the growth and caused damage in many parts of the western and northern districts. The rainfall since then, though it came somewhat late, has benefited to some extent late-sown crops. On the whole, the season may be regarded as fair.

Outturn.—According to the estimates of the District Officers the provincial outturn of the different oilseed crops works out at 76 per cent. of the normal against 77 and 76 per cent. in the corresponding and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA,

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1920-21.

[Note.—On an average of the five years ending 1918-19, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to the total wheat acreage in (a) British India and (b) in the territory now reported on, has, in the five years ending 1918-19, averaged (a) 41·8 and 17·0 per cent., respectively.]

Character of the season.—Owing to excessive soil-moisture, the progress of sowing was generally slow at the beginning, but the subsequent dry spell facilitated operations. Drought which continued up to the middle of January had an injurious effect on the crop. The rainfall, since then, has considerably improved the prospects, and the present condition is reported to be favourable.

Area sown.—According to the estimates of the District Officers, the total area under wheat amounts to 116,200 acres against 116,300 and 116,100 acres reported in last year's corresponding and final forecasts respectively.

Outturn.—From the District Officers' estimates, the provincial outturn works out to 81 per cent. of the normal this year against 78 per cent. in the corresponding and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA,

The 24th February 1921.

Murshidabad ...	69,300	24,400	22,300	75	75	October to November. Normal.	The decrease in area as compared with last year is due to want of rainfall at sowing time. The weather has been favourable now but the outturn is expected to be below the normal owing to want of rainfall at sowing time.

Pabna ...	16,000	10,000	7,000	50	67	Ditto ...	The weather was favourable for the cultivation but continued drought since the sowing time retarded the growth of the crop to some extent and damaged about two-thirds of the crop. The recent rainfall has somewhat improved the prospects. The decrease in area is due to indifference of cultivators to grow this crop.
Malda ...	60,000	35,000	40,000	90	100	End of October. Normal.	The increase in area as compared with that of last year is due to favourable weather at sowing time. RESOLUTION REGARDING THE APPOINTMENT OF A COMMITTEE TO INQUIRE INTO THE GENERAL CONDITION OF THE CALCUTTA MADRASAH AND TO MAKE PROPOSALS FOR ITS FUTURE IMPROVEMENT.

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Education.

CALCUTTA, THE 28TH FEBRUARY 1921.

RESOLUTION—No. 509Edn.

THE original reason for the establishment of the Calcutta Madrasah passed away a few years after its foundation. Since then the subject of its reform has been under the consideration of several committees. In spite of their attempts to make the institution useful to the community for whose benefit it was established continued dissatisfaction has been expressed by the leading Moslems of the Presidency.

2. The last of the committees was appointed by Government resolution No. 981, dated the 25th February 1915. The committee met in July 1915 and made certain suggestions as to the revisions necessary in the courses of studies. The recommendations were however so general that no definite action could be taken on them. The Principal of the Madrasah was asked to consider them and draw up a revised curriculum. This has now been submitted for the approval of Government.

3. The Government of Bengal have noticed with regret the failure of previous efforts to make the institution fulfil the purpose for which it has been maintained, and they have decided to appoint a committee to enquire into the general condition of the Madrasah and to make proposals for its future improvement.

4. It is the desire of the Government of Bengal that the constitution of the committee should be such as to ensure a thorough enquiry into the particular problems connected with the preservation of Islamic learning in Bengal and that its members should be able to make recommendations in the light of the history of the institution and the present requirements of the Muhammadan community in Bengal. The majority of the members are therefore old students of the institution, who are now occupying positions of importance, and gentlemen who have served or are now serving on its staff. With these are associated others whose desire for the progress of the community ensures their interest in the future of the institution, which holds a place in the affection of the Moslems of this Presidency which no new institution, however efficient, can hope to attain.

5. The committee is particularly to enquire into and report to Government on the points noted below and to suggest such reforms as may promote the welfare of the students who in the future will receive their training in this institution :—

(*a*) The general management and discipline of the Madrasah.
(*b*) The course of studies prescribed for the Arabic Department.
(*c*) The number, qualifications and duties of members of the staff of the Arabic Department.
(*d*) The qualifications to be required from candidates for admission to the Arabic Department; age of admission.
(*e*) Arrangements for examinations and award of scholarships.

The members of the Committee will be :—

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 59 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1921), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1920 (*This Office No. 43 of 1920*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

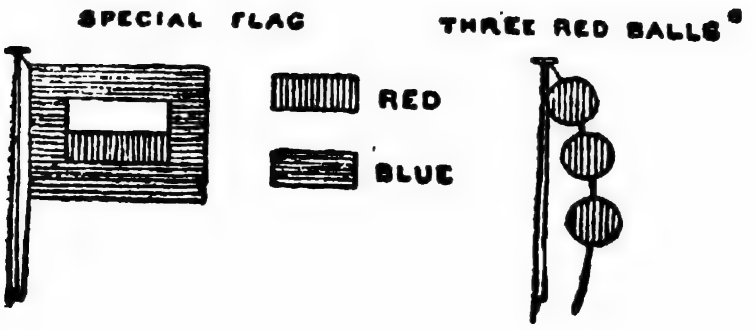
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red vertical balls if the port is closed.



Usually the Examination Steamers will fly the blue ensign, but at certain ports they will fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal "What ship is that?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examination Officer :—

To lower any boat.
To communicate with the shore or with other ships.
To move the ship.
To work cables.
To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-sweeping operations.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. Signals that will be shown by day.

(*a*) By vessels working singly :

A black ball at the foremast head, and a similar ball at each yardarm or where they can best be seen.

Vessels showing this signal should not be approached nearer than 900 yards (822^{m}9).

(*b*) By vessels working in pairs or groups :

A black ball at the foremast head, and a similar ball at the yardarm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^{m}8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^{m}8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all-round green lights will be used in a similar manner to and in place of the black ball.

The Annual Progress Report on the Forest Administration in the Presidency of Bengal for the year ending the 30th June 1920.

The corresponding report of the previous year and the Government Resolution thereon.

THE forests of Bengal, with which Sir Henry Farrington, Conservator of Forests, has dealt in his interesting report for the year ending June 1920, are

all on the fringe of the province, the Darjeeling, Kalimpong, Kurseong, Jalpaiguri and Buxa Divisions being in the extreme north, the Chittagong Hill Tracts and Chittagong Divisions on the eastern border, and the Sundarbans Division on the south. The area of these forests is 10,704 square miles. With the forests in the rest of the province the Report is not concerned. Chapter VI of the Indian Forest Act, 1878, has not yet been applied to any forest not owned by the State.

Administration.—Sir Henry Farrington was in charge of the Bengal Forest Circle throughout the year. He was on tour for 301 days and inspected all divisions and offices except Cox's Bazar, where a new administrative division was formed on the 1st April 1920.

The work in the divisions was adversely affected by the loss of several officers and other changes in staff. Two Deputy Conservators resigned and a third retired. Five temporary posts were created, but the three officers appointed did not stay long enough to do useful work. The Governor in Council trusts that the recent re-organisation of the pay and prospects of the Imperial and Provincial Forest services will secure for the province a more adequate and less changing staff.

2. **Changes in area and administration.**—The area of the reserved forests was increased by the addition of 3 square miles, but there was no change in the area of Protected and Unclassed State Forests. Proposals for the reservation of 226 square miles are still under the consideration of Government.

Progress in forest settlement was hampered by the want of funds, and the expenditure on the demarcation of boundaries was also reduced.

3. **Regulation of Management.**—The revised working plan for the Jalpaiguri Division was brought into force. Working plans for the Chittagong, Chittagong Hill Tracts and Cox's Bazar Divisions were under compilation during the year and those for areas under the Darjeeling and Kurseong Divisions were revised. There were considerable deviations from the sanctioned working plans in most divisions, the felling being below the prescribed quantities. The reasons for this were lack of demand, paucity of staff, revision of working plans and arrears of previous years.

4. **Communications and Buildings.**—Owing to financial stringency due to the war, very little could be spent on new work. Two and a half miles of cart-roads and 9 miles of bridle-paths and several bridges were constructed, whilst 305 miles of cart-roads and 528 miles of bridle-paths were repaired. The total expenditure on communication amounted to Rs. 21,038, against Rs. 18,757 in the preceding year, the corresponding figures for buildings being Rs. 49,254 and Rs. 33,550. Several buildings in the Sundarbans destroyed by the cyclone of 1919 were replaced during the year. Good progress was made in housing forest subordinates in most divisions.

5. **Protection of Forests.**—The number of forest offences reported during the year was 3,269 as against 3,694 in the preceding year. The decrease is satisfactory, and is ascribed not only to more frequent resort to the Courts in 1918-19 but also to keener vigilance on the part of the subordinate staff and to the infliction of adequate punishment by Courts in proved cases. The fact that the percentage of convictions was 94 shows that unnecessary prosecutions were not undertaken. The number of prosecutions for shooting in contravention of rules increased from 37 to 41, but it has not yet been possible to cope with the destruction of elephants for the sake of their tusks in the Chittagong and Chittagong Hill Tracts districts. It is reported that the inhabitants of the Tippera State take advantage of the fact that minor forest offences are non-extraditable..

The year was favourable to fire protection, and 99·4 per cent. of the area of 400,272 acres in which protection is attempted was successfully protected. The Conservator has mentioned the satisfactory success in protecting the Kurseong forests. The fires that occurred in the Teesta Valley sâl forests did little or no damage and will probably assist sâl regeneration.

Offences relating to grazing decreased, the number of cattle impounded being 5,057 against 7,021 in the preceding year. The decrease is most remarkable in Jalpaiguri and Buxa, where the villagers are reported to have realised the value of looking after their cattle instead of paying the penalty.

Observation of sâl *fungus* has been continued in Jalpaiguri and Buxa, but definite conclusions cannot yet be drawn. Defoliators, borers and mole crickets are mentioned as causes of damage in various areas, and damage by wild animals was reported from all divisions, the chief culprits being elephants, squirrels, bison, deer, pigs, monkeys and rhinoceros. Wire fencing has been used with success to prevent such damage in Buxa, Jalpaiguri and Kurseong Divisions.

Every attempt is being made to eradicate *Lantana* which is spreading fast into the Kalimpong forests from the adjoining Duars Tea Gardens. In Chittagong and Cox's Bazar the most injurious pest is the weed *Ageratum*, but no means of keeping it down has yet been found.

The climatic conditions of the year were not altogether favourable. Though no damage from drought was reported, the damage caused by frost and hail in the Darjeeling Division was considerable.

The cyclone of 1919 swept over the Sundarbans Divisions and did much damage to a part of the forests and a heavy unexpected flood in March carried away bamboos, bamboo rafts and sun grass in the Kornafuli river in the Chittagong Hill Tracts Division.

6. **Silviculture.**—The experience of the year under report confirms the view that natural reproduction of the more valuable species of trees in northern Bengal is unsatisfactory, and all working schemes now provide for artificial regeneration in plantations worked under the "Taungya" system introduced from Burma. The Conservator notes that the labour question in the "Taungya" areas has sensibly improved and that the cultivation of areas in the forest by outside villagers is a hopeful sign which is seen everywhere in the hill divisions and in some places in the Duars.

7. **Exploitation.**—With the cessation of demands from the Munitions Board, departmental operations were restricted to the extraction of timber required for the supply of sleepers to railways and for roads, buildings, and bridges constructed departmentally. A sale depôt is being established at Siliguri. A semi-portable saw mill was received at the close of the year and is about to be installed in the Kurseong Division.

The Murti Saw Mill in Jalpaiguri worked at a profit but as the owners were unwilling to continue, the mill has been closed down The India Paper Pulp Company, of which Messrs. Andrew Yule & Co. are the Managing Agents, removed 388,640 bamboos for paper pulp from the Kassalong Range in the Chittagong Hill Tracts under their lease. No royalty was charged in accordance with the terms of the agreement.

Sixty-eight elephants were caught by departmental kheddah operations. The most successful were the operations in the Chittagong Hill Tracts, resulting in the capture of 51 elephants and a net profit amounting to Rs. 21,069 from the sale of 48 elephants.

The total value of the year's sale amounted to Rs. 16,11,644, against Rs. 14,69,226 during the preceding year. The value of the timber sold in these two years was Rs. 10,83,982 and Rs. 9,02,964. The value of the forest produce removed at privileged rates was Rs. 93,774, against Rs. 81,720 in the year 1918-19. Produce given free of royalty was worth Rs. 63,430, against Rs. 33,141 in the preceding year. Timber and other minor products were given free in large quantities in the Sundarbans to people affected by the cyclone of 1919.

The Bengal forests contributed to the successful exhibits sent to the British Empire Timber Exhibition in London.

8. **Financial results.**—The financial results were satisfactory. The total revenue, which was Rs. 19,55,394 in the preceding year, rose to Rs. 20,02,819. Expenditure, however, also increased and the surplus fell from Rs. 11,21,700 to Rs. 9,47,595. Of the expenditure, 55 per cent. was on constitution,

improvement and exploitation, and 45 per cent. on administration, executive and protective charge. The percentage of net income fell from 57 to 47 owing to the increased expenditure.

9. **Research and Experiments.**—The Conservator's report gives interesting information about the experiments made in various divisions. The results were in some cases negative. Seeds of the California red wood failed to germinate, and experiments made to produce alcohol from Sundri seed and starch from Sundri fruits also failed. On the other hand interesting results were obtained by Mr. J. A. Pilgrim, Tannin Expert to the Government of India, from his investigations of various tan stuffs at the Buxa Timber and Trading Company's concession at Rajabhatkhawa. At the same place there was a very satisfactory outturn of experimental work in connection with nurseries.

10. The thanks of the Governor in Council are due to Sir Henry Farrington for his careful and successful administration of the Department during a year in which administration was rendered difficult owing to shortage of officers. His Excellency in Council has read with pleasure the Conservator's appreciation of the work done by officers of the Department.

ORDER.—Ordered that this Resolution be published in the gazette and that a copy, with a copy of the report, be submitted to the Government of India.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal (offg.).
